- **1st place** · UI/UX Design Challenge
- **3rd place** · National Graphic Design Competition
- **9th place** · UI/UX Interaction Competition

Jahgrant Aiyedun

Product Designer & Design Engineer

Product designer and design engineer with over three years shipping product experiences from first sketch to final commit. I work across the full breadth of the craft: user flows, high-fidelity prototypes, and the front-end code that brings them to life, always in close partnership with product managers and engineers. I build interfaces that feel inevitable, design systems that scale gracefully, and motion that gives a product its pulse.

EXPERIENCE

Design Engineer · Termii

Mar 2026 – Present

- Building Termii's new unified dashboard, owning the journey from design through to shipped code.
- Evolving the design system so components and patterns stay consistent across every product.
- Shaping experiences that bring Termii's products together into one cohesive whole.

Product Designer · Termii

Mar 2025 – Mar 2026

- Designed end-to-end experiences across Termii Switch, Engage, Assist, and Ayla A.I.
- Led the design of the new marketing website and a suite of high-converting landing pages.
- Scaled and maintained the design system as the product surface rapidly expanded.

Product Design Lead · Partyjor

Jul 2024 – Mar 2025 ♦

- Owned UI and UX across the entire product, keeping every screen visually and behaviorally in sync.
- Architected information hierarchies and user flows for new features and updates.
- Crafted signature micro-interactions that gave the product its personality.
- Ran quality assurance across releases to ship a consistently polished experience.

Product Designer · Hashit Limited

Jun 2023 – Jan 2024

- Designed interfaces for new flows and features, from concept through to handoff.
- Built and maintained the shared design system.
- Explored and prototyped concepts for upcoming product updates.

UI/UX Designer · Digital Abundance Holdings

Aug 2022 – Apr 2023

- Designed the UI and UX for the Cryptolife web app and its admin platform.
- Established design systems and crafted event landing pages for DABA.
- Delivered a steady cadence of updates and new features.

Motion Design Intern · Digital Abundance Holdings

Sep 2021 – Jul 2022

- Edited videos for the Wealth Creation series and produced promotional ads for events.
- Created TikTok and Instagram content and recorded brand voiceovers.

Brand Designer · Parkay Imperio

May 2021 – Jun 2022

- Designed printable merchandise, flyers, and the full suite of social media assets.
- Helped attract 100 new customers over the course of the engagement.
